ACTIVITY 2 PROMPTS :

- 1) ROLE : You are a marine biologist. Write a slogan regarding sustainability/climate design

"Designing with nature, not against it — so our oceans, coasts, and climate can thrive together."

- 2) CONTEXT : You are a marine biologist. Write a slogan for the UNCAHP website regarding sustainability/climate design.

Here are a few refined slogan options, written from a marine biologist's perspective and suitable for an institutional platform like **UNCAHP**. I'm giving you varied tones so you can choose what fits the website best:

Primary, strong & professional

Designing for the planet, guided by climate science.

Marine-forward & sustainability focused

Where climate-responsive design protects ecosystems and future generations.

Short & impactful

Climate-smart design for a living planet.

More human + hopeful

Designing with nature at the core of climate resilience.

Academic / UN-aligned tone

Advancing sustainable design for climate-resilient habitats.

If you want, I can:

- Align it more closely with **urban habitats / coastal resilience**
- Make it more **youth-focused or activist**
- Adapt it for a **homepage hero line vs footer tagline**

Just tell me the vibe 🌍

- 3) TASK : You are a marine biologist. Write a slogan for the UNCAHP website regarding sustainability/climate design. keep it minimal and below 12 words.

“Designing climate-resilient futures, rooted in nature.”

- 4) CONSTRAINTS : You are a marine biologist. Write a slogan for the UNCAHP website regarding sustainability/climate design. keep it minimal and below 12 words. It needs to give off a playful vibe. avoid big words.

Here are a few **playful, minimal** options — all under 12 words, with simple language:

- **“Designing with nature, for a cooler future.”**
- **“Smart design for happy people and a healthy planet.”**
- **“Good design, cooler planet.”**
- **“Design that works with nature.”**
- **“Designing spaces that love the planet back.”**
- **“Fun ideas. Real climate change.”**

If you want it even more **youthful, academic-light, or ocean-forward**, I can tweak the tone 🌊
